

Youth friendly GPs in our area

Talk about the following with your group

1. What is GP access like in our area? Is it hard to get an appointment with a GP?
 - o If you don't know, could you call and find out.
2. What makes a doctor "youth friendly"? Make a list of criteria
3. How would you go about finding a "youth friendly" doctor?
4. Which doctors are "youth friendly" in your area?
5. Is it difficult to go to a GP for a young person where you live?
6. What might stop a young person going to see a GP? How could these barriers be overcome?

Note down the most important things you have discussed:

GP access in our area	
What makes a GP youth friendly?	
How could we find a youth friendly GP?	
Who are some youth friendly GPs in our area?	
How did we find this out?	
What makes it difficult for young people to access a GP in our area?	
What might stop a young person from going to see a GP?	

Are there specific services in your area for health issues relating to young people? For instance mental health or sexual health? Crisis care? Support for pregnant students?

Stage 5 Youth Friendly General Practice – Resource #5

Choose one fact or point that you have discussed above and designed a health strategy to promote this area/fact to young people:

Outline of area/ fact chosen

Why do we think young people need to know this information/ fact/ service?

Mock up of our poster/ glogster:

Go to <http://edu.glogster.com> to complete your glog online.

How else could we present the information to them?
